

1) Contact our Federal Officials , State Officials ,County Officials

Join your neighbors in opposition to PATH. Tell our Federal officials to oppose the PATH transmission line and to work towards repealing the National Interest Electric Transmission Corridor (NIETC) designation of Northern Virginia. Tell Governor Kaine and our state officials to represent us. We don't want PATH's monoliths permanently marring the landscape; we don't want our conservation easements destroyed; we don't want our trees cut down; we don't want more emissions from dirty coal polluting our air; we don't want PATH to destroy people's homes, take their property and ruin their livelihoods. As West Virginia becomes the market of choice for cheap dirty coal fired electricity, Virginia becomes the corridor of choice for transmission lines. Tell PATH: NO ! Virginia will not become the corridor of choice for overhead high voltage extension cords linking West Virginia and the east coast!

Federal Officials

Congressman Frank Wolf

**10th District Representative
241 Cannon Building,
Washington, DC 20515**

Washington Office: **202 - 225- 5136**

- 2) **Next year is an election year for Governor of Virginia.** Contact both parties. Tell them to **take a public stand AGAINST PATH and AGAINST the National Interest Electric Transmission Corridor designation of Northern Virginia** and to pledge to form a regional transmission siting agency with the Governors of PA, WV and MD to protect Virginia’s interests. **OR don’t bother to campaign in Loudoun!**

Virginia Republican Party (Loudoun)
P.O. Box 547
Leesburg, Virginia 20178

Phone: **703-627-5272**

chairman@loudoungop.com

Virginia Democratic Party (Loudoun)
10 South King Street
Leesburg, Virginia 20175-3007

Phone: **703-771-3366**

chairman@lcdems.com

- 3) **Contact PATH** at askpath@pathtransmission.com. Tell the CEO’s of AEP and Allegheny Power that PATH is totally unacceptable, alternate non-transmission solutions must be investigated along with alternate technologies that can be run underground. Call for an independent investigation of non-transmission solutions including a power plant closer to the projected energy need as well as alternate technology such as HVDC transmission that can be buried.
